

SRKR
ENGINEERING COLLEGE
AUTONOMOUS

CIVIL ENGINEERING

INDUSTRIAL CONSULTANCY SERVICES

ABOUT SRKR

SRKR Engineering College, established in 1980, is one of the first self-financing engineering institutions in Andhra Pradesh. The college is dedicated to providing quality technical education and promotes creativity, confidence, innovation, and practical learning among students. Guided by the vision of its founder, Sri Sagi Rama Krishnam Raju, and under the leadership of Sri SRK Nishant Varma, SRKR continues to strive for academic excellence and student success.

About the Department

The Civil Engineering Department at SRKR, is equipped with state-of-the-art laboratories and cutting-edge technology. We have a diverse team of highly qualified faculty members with extensive research experience and a strong industry orientation. Our strengths lie in our comprehensive approach to infrastructure development, environmental sustainability, and advanced construction techniques. Along with conventional consultancy labs, we leverage the latest advancements in geospatial technology and data analytics to provide precise and efficient solutions. Our commitment to excellence and continuous learning ensures that we stay at the forefront of the field, delivering top-notch consultancy services tailored to meet the unique needs of our clients.

OUR SERVICES

The SRKR Engineering College remains committed to delivering high-quality, reliable, and ethical consultancy services by leveraging its academic excellence, experienced faculty, and state-of-the-art facilities. Clients from all sectors can avail the expertise and facilities of the Institute through our Institutional consultancy services.

These services support government agencies, public sector undertakings, and private organizations by offering reliable, research-driven engineering solutions for nearly five decades.

Geotechnical Engineering

Structural Engineering

Transportation Engineering

Environmental Engineering

Surveying

Geotechnical Engineering

Moisture Content
Atterberg Limits/Consistency Limits
Free Swell Index
Compaction Characteristics
Unconfined Compressive Strength (UCS)
California Bearing Ratio (CBR)
Triaxial Testing (UU, CU, CD)
Direct Shear Test
Vane Shear Test
Hydraulic Conductivity (constant/variable)
Relative Density
Consolidation Characteristics
Mechanical Dry and Wet Sieve Analysis
Specific Gravity (Density bottle/Pycnometer)
Field Density by Core Cutter
Field Density by Sand Replacement
Plate Load Test
Chemical Analysis of Soil (pH, Chlorides, Sulphates)
SBC Report

Structural Engineering

Cement/Pozzolanic material

Normal Consistency
Initial and Final Setting Time
Fineness
Specific Gravity
Compressive strength of mortar

Hardened Concrete

Concrete Mix Design- IS 10262
Slump Measurement
Design of Self-Compacting Concrete
Concrete Cube Strength (150*150*150)
Concrete Core Compressive Strength
Split Tensile Strength
Flexural Strength
Water Permeability
Concrete subjected to elevated temperatures
Non-Destructive testing

AAC Block/ Paver Block and Brick

Water Absorption
Density
Compressive Strength
Thermal Conductivity
Dimension

Steel Testing

Ultimate Tensile Stress and Percentage Elongation

Transportation Engineering

Aggregate Gradation (Sieve Analysis)
Specific Gravity & Water Absorption
Impact Value Test
Crushing Value Test
Flakiness & Elongation Test
Los Angeles (LA) Abrasion Test
Bitumen Extraction Test
Bitumen Ductility
Softening point
Penetration test
Flash and fire point
Core drill/ sample
GSB and WMM mix design

Surveying

Boundary survey
Contour survey
Surveying by Total station, Auto level and Theodolite
Location of Pile position as per plan

Structural Planning and Designs

Organisational Training Programmes

Introduction and Advanced Level Training in QGIS and ArcGIS
Satellite Imagery Processing using AI & ML Techniques
Basic and Advanced Structural Analysis and Designing
Life Cycle Assessment and Innovative Construction Materials

Environmental Engineering

Drinking water/ Aquaculture water

pH
TDS
Turbidity
Alkalinity
Hardness
Chlorides
Sulphates
Phosphates
Dissolved Oxygen
Ammonia
Nitrate
Nitrite
Iron
DOM
Microbial Load
Salinity
Antibiotic Residues
Pesticide Residues

Note:

- Submit sufficient quantity samples with a test request letter stating the nature of samples, required tests, protocol, and customer details.
- A quotation for testing charges and the required quantity can be made by contacting the address or email given below.
- Payment must be made 100% in advance.
