ACTIVITY REPORT 2024-2025

UNNAT BHARAT ABHIYAN (UBA) CELL

S.R.K.R. Engineering College (A)

SRKR Marg, China Amiram

Bhimavaram-534204

West Godavari District

Andhra Pradesh, India

Nasha Mukt Bharath Abhiyan (NMBA) - A Pledge for Drug Free India:

A Nasha Mukt Bharat Abhiyan (NMBA) Pledge event was organized for the engineering students of the Computer Science and Engineering (CSD) and Civil departments on August 10th and 12th, 2024. The event aimed to raise awareness about the dangers of drug abuse and its impact on youth. Through the pledge, students committed to staying drug-free and contributing to a drug-free society, reinforcing the importance of making informed, healthy choices for their future. The initiative highlighted the collective responsibility of young individuals in combating the menace of drugs.

National Mathematics Day-2024:

The Unnat Bharat Abhiyan (UBA) Cell of SRKR Engineering College organized a National Mathematics Day celebration at Kallakuru Upper Primary School. The event was graced by Dr. K.M. Ganesh, UBA Coordinator; Dr. G.N.V. Kishore, Professor of Mathematics; and Dr. G. Suribabu, UBA Village Coordinator. During the program, Dr. K.M. Ganesh addressed the students, sharing an inspiring biography of the legendary mathematician Srinivasa Ramanujan and highlighting the significance of mathematics in daily life. To engage the students further, a "Ramanujan Test" was conducted for 8th-grade students, fostering

their interest in mathematics. Prizes were distributed to the winners, encouraging academic excellence and enthusiasm for the subject. The event successfully emphasized the value of mathematics and celebrated the contributions of Srinivasa Ramanujan to the field.

National Hand Writing Day-2025:

National Handwriting Day was celebrated with great enthusiasm at Jakkaram Primary School, which is adopted under the Unnat Bharat Abhiyan (UBA) initiative. The event aimed to emphasize the importance of good handwriting and its role in academic success and personal expression. The program commenced with an introduction to National Handwriting Day, highlighting its significance in fostering neatness, discipline, and effective communication among students. Distinguished guests, including Dr. G. Suribabu, Dr. G.N.V. Kishore, Dr. N. Veera Raju along with the school Headmistress, Geeta madam, and Trinad sir, delivered valuable advice and motivational speeches. Their words inspired the students to appreciate the art of handwriting and its importance in their academic journey. Students actively participated in various handwriting activities organized during the event. The program included a handwriting competition to encourage students to practice and improve their skills, demonstrations of proper techniques for writing legibly and neatly and guidance on maintaining consistency and precision in handwriting.

The students were highly motivated by the inspirational speeches and the engaging activities. They expressed a keen interest in improving their handwriting and recognized its importance in academic and personal growth. The celebration of National Handwriting Day at Jakkaram Primary School was a meaningful and enriching experience for the students. It reinforced the significance of handwriting in building discipline and character, leaving a lasting impact on their young minds.

World Forest Day -2025:

The students of Civil Engineering (CE) and Electronics and Communication Engineering (ECE) at SRKREC organized a special event on World Forest Day, observed on 21st March 2025. The program aimed to raise awareness about the importance of forests, environmental conservation, and sustainable development.

Eminent speakers, Dr. K. M. Ganesh and Dr. T. Rambabu, addressed the gathering, emphasizing the significance of afforestation, climate change mitigation, and the role of technology in forest conservation. Their insights inspired students to take active participation in environmental initiatives.

Students from both departments also shared their thoughts and perspectives on forest conservation, offering innovative ideas and solutions to protect natural ecosystems. The event concluded with an interactive session and a commitment to promoting green initiatives within the campus and beyond. This celebration served as a meaningful step towards fostering environmental responsibility among future engineers.

World Water Day -2025:

The students of Civil Engineering (CE) and Electronics and Communication Engineering (ECE) at SRKREC organized a special event on World Water Day, 22nd March 2025. The program aimed to raise awareness about the importance of water conservation and sustainable management of water resources.

Dr. T. Rambabu and Dr. K.M. Ganesh were the keynote speakers, sharing their insights on water sustainability, innovative water management techniques, and the role of engineering in addressing global water challenges. Their discussions highlighted the critical need for responsible water usage and the latest advancements in water conservation technology.

Students from CE and ECE actively participated in the session, engaging in meaningful discussions and adding valuable comments on various water-related issues. Their perspectives and contributions enriched the event, fostering a deeper understanding of the challenges and solutions related to water conservation.

The event concluded with a collective pledge by students and faculty to adopt responsible water usage practices and promote awareness within the community. The program successfully reinforced the significance of World Water Day and the role of engineers in ensuring a sustainable future for water resources.

Bio Gas Plant Visit at Peda Amiram Village:

On March 29, 2025, Dr. B. Pavani, RCI-Coordinator, Visakhapatnam, visited the Bio Gas Plant established under the SEG project (RP-03525G) grants. The visit was facilitated by Dr. T. Rambabu, Coordinator of the SRKREC UBA Cell, along with other village coordinators, including Dr. KM Ganesh, Dr. G. Suribabu, Dr. R. Subbarao, Dr. GNV Kishore, and the Plant Operator, Mr. I. Chalapathirao.

During the visit, Dr. KM Ganesh, the Project Coordinator, provided a detailed explanation of the functioning of the Bio Gas Plant. The plant operates using organic waste collected from the Goshala and domestic kitchens, effectively converting waste into sustainable energy. The delegation also visited the kitchens and the Goshala located in proximity to the plant to assess the waste management system and its integration with the plant's operations.

Dr. B. Pavani commended the initiative and emphasized the significance of adopting similar waste management solutions in other villages. She encouraged the village coordinators to explore the feasibility of implementing such projects in their respective areas to enhance waste utilization and promote environmental sustainability.

SRKREC UBA Cell's Visit to Natural Cultivation Farm in Mogallu Village:

The Unnat Bharat Abhiyan (UBA) Cell of SRKR Engineering College conducted a field visit to a Natural Cultivation Farm in Mogallu Village, where both agricultural and horticultural activities are practiced in parallel. The farm, managed by Dr. M. Jagapathi Raju, serves as a model for organic and natural farming in the region.

Dr. Jagapathi Raju has been experimentally integrating paddy cultivation with various horticultural crops, including papaya, mango, dragon fruit, coconut, guava, and vegetables such as ladies' finger (okra) and moringa (drum stick/munaga). His innovative approach to mixed cropping and organic farming has demonstrated significant potential for increasing profitability and sustainability for the local farming community. This method is considered an ideal farming model for the district, promoting eco-friendly and cost-effective agricultural practices.

A team of esteemed faculty members, including Dr. B. Pavani (RCI Regional Coordinator), Dr. T. Rambabu (UBA Coordinator), and village coordinators Dr. K. M. Ganesh, Dr. P. Raghuram, Dr. G. Suribabu, Sri J. Jeevan Kumar, and Dr. R. Subbarao, visited the farm to gain insights into these sustainable practices.

During the visit, Dr. Jagapathi Raju provided a detailed explanation of his natural farming techniques and emphasized the need for widespread awareness among farmers in the UBA service villages. He urged the visiting team to promote these sustainable agricultural practices to benefit the farming community, which forms the backbone of the nation.

This visit highlighted the significance of organic and natural farming in enhancing productivity and environmental sustainability while ensuring economic viability for farmers. The insights gained from this visit will aid in the dissemination of best practices and the encouragement of eco-friendly farming methods across the region.

World Earth Day:

The college's UBA wing organized an Earth Day awareness event at the local Zilla Parishad High School premises to educate students on combating rising temperatures and pollution through afforestation.

UBA Coordinator Dr. G. Suri Babu highlighted that rising pollution and environmental neglect are causing the extinction of various species and threatening human survival. He urged students to actively participate in planting and nurturing trees wherever space is available.

The school headmaster, B. Ramakrishna, discussed the long-term benefits of the school's existing plants. Other prominent college faculty members, including Dr. G. Mahar Ganesh and Dr. T. Bhasha, participated in the event.

Faculty and students together planted medicinal and fruit-bearing saplings on the school grounds. Additionally, seeds were distributed to students to plant in open areas to further expand green cover.

Free Eye Camp by Maxivision Eye Hospital, Bhimavaram:

A Free Eye Camp was successfully conducted at Peda Amiram village by Maxivision Eye Hospital, Bhimavaram, in association with the Unnat Bharat Abhiyan (UBA) Cell of SRKR Engineering College (SRKREC). The camp aimed to promote eye health and provide accessible eye care services to the rural population.

Held as part of SRKREC's outreach initiatives under UBA, the event witnessed enthusiastic participation from the villagers. A dedicated team of ophthalmologists and healthcare professionals from Maxivision Eye Hospital carried out comprehensive eye check-ups, screened for vision-related issues, and offered necessary medical advice. Patients requiring further treatment were referred to the hospital for advanced care.

The camp not only raised awareness about eye health but also reflected the institution's commitment to community welfare and sustainable development. The active involvement of student volunteers and faculty members further highlighted SRKREC's dedication to social responsibility through meaningful collaboration.
