SRKR ENGINEERING COLLEGE (AUTONOMOUS)

EEE CHRONICLE

VOLUME 5 | ISSUE 1 | JAN-JUN 2026

ADVANCING EXCELLENCE IN ELECTRICAL AND ELECTRONICS ENGINEERING

Vision and Mission

VISION:

To become a center of excellence in electrical engineering that fosters learning, research and innovation with social relevance.

MISSION:

- To build an environment that cultivates employability skills with human values& topics.
- To establish a collaborative interaction with industry for laboratory development, research and innovation.
- To create an ambience that encourages active participation of students and staff in the pursuits towards excellence.

DEAN'S MESSAGE

The Department of EEE has a proud legacy of academic excellence, discipline, technical competence, and student achievements. With growing opportunities in renewable energy, power electronics, EVs, smart grids, automation, and emerging technologies, students have diverse career opportunities.

I encourage all students to strengthen their technical and communication skills through internships, certifications, projects, competitions, hackathons, and professional activities. Prepare sincerely for GATE, government/PSU jobs, higher studies, and industry opportunities while developing teamwork, leadership, and problem-solving abilities.

Maintain discipline, regular attendance, punctuality, and academic excellence. Also give importance to your physical and mental well-being.

I congratulate the EEE Department and editorial team for this edition of the EEE Chronicle and wish all EEE students great success in their academic and professional journey. All the best!

SAMAGRA-2026

The Department of Electrical & Electronics Engineering organized SAMAGRA-2026 on 5 March 2026, with Renewable Energy as its theme. The event featured a Technical Presentation and Project Expo, providing students a platform to showcase their knowledge, creativity, and innovative ideas in solar energy, wind power, energy storage, and smart grids. A total of 39 teams actively participated, presenting insightful concepts and working prototypes focused on sustainable energy solutions. The projects and presentations were evaluated by expert faculty and judges based on innovation, technical knowledge, presentation quality, and practical applicability. The event successfully promoted innovation, sustainability, and hands-on learning among students.

PROJECT EXPO

On 28 April 2026, the Department of Electrical & Electronics Engineering, SRKREC(A), successfully organized Project Expo–2026 with the theme "Powering Innovation for a Sustainable and Greener Future." A total of 53 projects —36 Curriculum and 17 Non-Curriculum Projects— were showcased, highlighting students' creativity, technical skills, and innovative thinking. The projects were evaluated by Dr. K. N. V. Satyanarayana, Assistant Professor, ECE Department, SRKREC(A), who interacted with students and provided valuable feedback. Outstanding projects were recognized with prizes, encouraging students to pursue innovation and excellence. The expo provided a platform to connect classroom learning with real-world applications and foster sustainable engineering solutions.

APOORVA

On 11 April 2026, the Department of Electrical & Electronics Engineering (EEE), Sagi Rama Krishnam Raju Engineering College (A), Bhimavaram ,organized APOORVA 2026, an Alumni Interaction Workshop, in collaboration with the SRKREC Alumni Association. The event was coordinated by Dr. G. Veeranna and Dr. G. H. K. Varma. The programme was graced by Chief Guest Ch. Ravi Kumar and Guest of Honour Yarlapragada Karthik, along with the Principal, Director, CFO of the Alumni Association, and Head of the Department. The speakers highlighted the importance of alumni–student interaction, career development, and opportunities through the Alumni Association. Alumni shared valuable insights on career prospects, emerging technologies such as Artificial Intelligence (AI), and essential technical skills, inspiring students towards their future career growth.

INDUSTRIAL TOUR

On 17th and 18th March 2026, II Year B.Tech. EEE students participated in an industrial visit to the 33/11 kV Indoor Sub-Station at ASR Nagar, Bhimavaram, coordinated by I. Kranthikumar. With 109 students taking part, the two-day visit provided an opportunity to connect classroom concepts with their practical applications in electrical power systems. Students gained first-hand exposure to the operation of transformers, circuit breakers, control panels, and protection equipment, while also learning about substation layout, safety protocols, and maintenance practices. Interaction with industry personnel further enriched their understanding by providing practical insights and an opportunity to clarify technical queries. The visit strengthened students' knowledge of power-system operations, enhanced their technical and safety awareness, and provided valuable experiential learning relevant to their future careers in electrical engineering.

VALUE ADDED COURSES

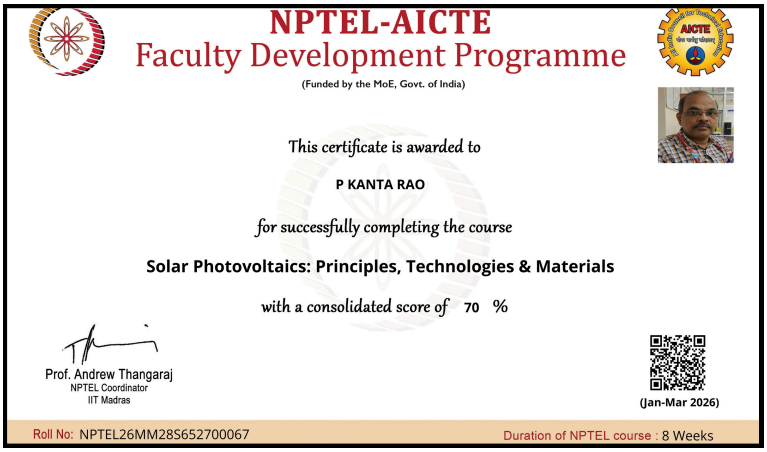

On 20th April 2026, a three-week value-added course on “C Essentials Part-I – Cisco Certification” commenced for I Year B.Tech. EEE students and continued through 8th May 2026. Organized by the Department of Electrical & Electronics Engineering in association with the SRKREC Alumni Association and Institution’s Innovation Council (IIC) and coordinated by A. Hemanth Kumar Raju, the programme was designed to strengthen students’ programming skills alongside their core electrical engineering knowledge. The sessions, conducted by M. S. Radha, Assistant Professor, IT Department, covered C programming fundamentals, data types, operators, flow control, conditions, loops, computer logic, arrays, pointers, strings, dynamic memory management, and functions. Hands-on programming exercises, practical examples, and module-wise assessments helped students develop structured programming skills and greater confidence in coding. The course also supported students interested in software development and embedded-systems programming. Successful completion prepared participants for the Cisco C-Essentials Certification, adding an industry-recognized credential to their academic profile and enhancing their future career prospects.

FACULTY ACHIEVEMENTS

NPTEL-AICTE
Faculty Development Programme
(Funded by the MoE, Govt. of India)

This certificate is awarded to

P KANTA RAO

for successfully completing the course

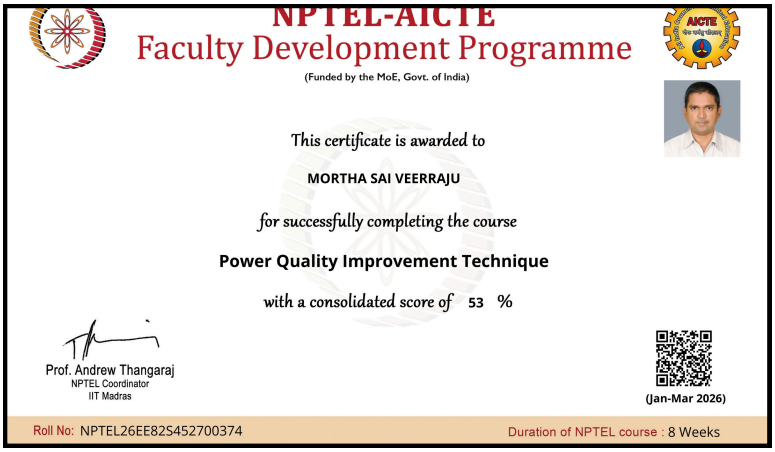

Solar Photovoltaics: Principles, Technologies & Materials

with a consolidated score of 70 %

Prof. Andrew Thangaraj
NPTEL Coordinator
IIT Madras

(Jan-Mar 2026)

Roll No: NPTEL26MM28S652700067 Duration of NPTEL course : 8 Weeks

NPTEL-AICTE
Faculty Development Programme
(Funded by the MoE, Govt. of India)

This certificate is awarded to

MORTHA SAI VEERRAJU

for successfully completing the course

Power Quality Improvement Technique

with a consolidated score of 53 %

Prof. Andrew Thangaraj
NPTEL Coordinator
IIT Madras

(Jan-Mar 2026)

Roll No: NPTEL26EE82S452700374 Duration of NPTEL course : 8 Weeks

Marathwada Mitra Mandal's
College of Engineering
Karvenagar, Pune-52
An Autonomous Institute Affiliated to Savitribai Phule Pune University

Best Paper Award

This is to certify that

Dr./ Ms./ Mr. Hussian Shaik (Jawaharlal Nehru Technological University ,Kakinada), G.Kusuma (S.R.K.R College of Engg. , Bheemavaram, A.P, India), Kishore Yadlapati (University College of Engg. Narasaraopet, JNTU Kakinada)

has received the Best Paper Award for the research paper titled

“Quantum-Enhanced MFO Optimiztion for Load Frequency Control”

presented at the International Conference on Sustainable and Futuristic Technologies (ICSFT 2026), themed “AI Integration for Sustainable Development”, technically sponsored by IEEE Pune Section and organized by the MMCOE, Pune, held on 24th and 25th April 2026.

Dr. S. S. Shiravale Dr. G. G. Chiddarwar Dr. K. S. Thakre Ms. S. N. Deshmukh Dr. S. R. Sakhare

A One Week Faculty Development Program on Cutting Edge Technology
Emerging Trends and Challenges in Electric Vehicle Technologies (FDP4CET-56)
29th June – 03rd July 2026

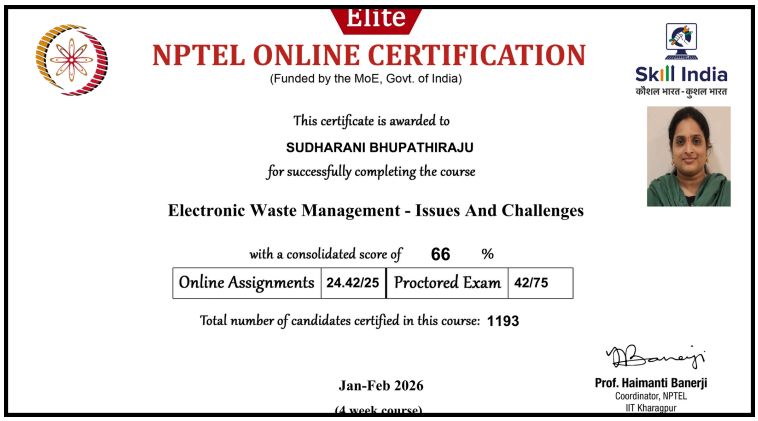

Organized in Collaboration with
Department of EEE, University College of Engineering Kakinada (A), JNTUK, Kakinada.
and
Department of EEE, SRKR Engineering College (A), Bhimavaram.

Certificate of Appreciation

This certificate is presented to Dr. G. Syamnaresh, Associate Professor of EEE, SRKR Engineering College (A), Bhimavaram, in recognition of his outstanding contribution as Coordinator for A One Week Faculty Development Program on Emerging Trends and Challenges in Electric Vehicle Technologies held during 29th June - 03rd July 2026.

Dr. K.V. Murali Krishnam Raju Prof. Ravindra Kollu

TECHNOLOGY CONCLAVE-2026

CERTIFICATE

This is to certify that Mr./Ms. ISUKAPALLI KRANTHI KUMAR Regd No.: 21082P0214 is a Ph.D. Scholar of Research Center SRKR ENGINEERING COLLEGE, BHIMAVARAM of JNTUK, in the Branch of EEE, and has presented the Poster titled" NOVEL 13 LEVEL ASSYMETRICAL MULTILEVEL INVERTER TOPOLOGY " and secured ~~(First / Second / Third)~~ Prize in the Poster Presentation event conducted as part of the JNTUK – Tech Conclave 2026 (2nd Research Scholars Symposium) held on 11th May 2026 at JNTUK, Kakinada.

The participation/performance of the student is appreciated.

Dr. P. Kanta Rao successfully completed the NPTEL-AICTE Faculty Development Programme on "Solar Photovoltaics: Principles, Technologies & Materials", an eight-week course conducted during January–March 2026, with a consolidated score of 70%. The certification highlights his continued professional development and academic engagement in solar photovoltaic technologies.

Dr. M. Sai Veerraju successfully completed the NPTEL-AICTE Faculty Development Programme on "Power Quality Improvement Technique", an eight-week course conducted during January–March 2026, with a consolidated score of 53%. This achievement reflects his commitment to continuous learning and professional development in power quality and electrical engineering.

Dr. G. Kusuma received the Best Paper Award for the research paper titled "Quantum-Enhanced MFO Optimization for Load Frequency Control" at the International Conference on Sustainable and Futuristic Technologies (ICSFT 2026), held on 24–25 April 2026 at MMCOE, Pune. The recognition highlights her contribution to innovative research in optimization techniques and power-system applications.

Dr. G. Syamaresh, Associate Professor of EEE, received a Certificate of Appreciation from the Directorate of IQAC & Capacity Building, JNTUK, in recognition of his outstanding contribution as Coordinator of the One-Week Faculty Development Programme on "Emerging Trends and Challenges in Electric Vehicle Technologies", conducted from 29 June to 03 July 2026.

Dr. Sudharani Bhupathiraju successfully completed the four-week NPTEL course on "Electronic Waste Management – Issues and Challenges" during January–February 2026. The certification reflects her commitment to continuous learning and professional development in sustainable electronic waste management.

K. Pavan Kumar, Assistant Professor, EEE, received a Certificate of Recognition for his outstanding contribution as an Evaluator for Prajwalan 2K26, a 24-hour National Level Hackathon organized by the Department of Computer Science and Engineering, S.R.K.R. Engineering College (A), held on 27–28 February 2026.

Further, K. Pavan Kumar was recognized for his valuable contribution as a Mentor for the “Amaravati Quantum Valley Hackathon 2025 – Grand Finale”, conducted by the Andhra Pradesh State Council of Higher Education (APSCHE) on 06 February 2026 at Dhanekula Institute of Engineering & Technology, Vijayawada. The certificate acknowledges his dedication and invaluable contribution as a mentor to the hackathon.

A notable achievement of the department is that two teams representing S.R.K.R. Engineering College participated in the Amaravati Quantum Valley Hackathon, and both teams emerged as winners. One of the winning teams was mentored by K. Pavan Kumar, Assistant Professor, EEE, whose guidance and mentorship supported the students in their successful participation and performance at the hackathon.

Mr. Isukapalli Kranthi Kumar, Assistant Professor, successfully completed the NPTEL course on “Data Mining”, earning an Elite certification with a consolidated score of 91% and securing a position among the Top 5% of certified candidates. As a Research Scholar at JNTUK, he also secured Second Prize in the Poster Presentation event conducted as part of JNTUK Tech Conclave 2026 – 2nd Research Scholars Symposium, for his poster titled “Novel 13 Level Asymmetrical Multilevel Inverter Topology.”

FACULTY Ph.D’s.

Dr. S. K. NAZEER

Thesis Title:

“Investigations on the Location and Detection of Faults for EHV Transmission Lines”

Congratulations to Dr. S. K. Nazeer on the remarkable achievement of earning his Ph.D. in Electrical and Electronics Engineering from Annamalai University. His doctoral research focuses on the location and detection of faults in EHV transmission lines, an important area of power-system protection and reliability. This achievement reflects his dedication, perseverance, and commitment to advanced research and academic excellence. His accomplishment is a proud milestone for the department and an inspiration to students and fellow faculty members.

Dr. BHUPATHI RAJU SUDHA RANI

Thesis Title:

“Advanced Control Strategies for Frequency Stability in Renewable Microgrids with Electric Vehicles and Storage Integration”

Congratulations to Dr. Bhupathi Raju Sudha Rani on the remarkable achievement of earning her Ph.D. in Electrical and Electronics Engineering from Annamalai University. Awarded with effect from 16th April 2026, her doctoral research focuses on frequency stability in renewable microgrids integrated with electric vehicles and energy storage systems. This achievement reflects her dedication, perseverance, and commitment to advanced research in renewable energy and power systems. Her accomplishment is a proud milestone for the department and an inspiration to students and fellow faculty members.

STUDENT SUCCESS STORIES

The Department of Electrical & Electronics Engineering takes immense pride in the achievements of its students across academics, innovation, research, technical competitions, and co-curricular activities. Our students have actively participated in project exhibitions, hackathons, paper presentations, technical competitions, workshops, and innovation programmes, showcasing their technical knowledge, creativity, and problem-solving skills.

Their accomplishments in areas such as renewable energy, electric vehicles, automation, embedded systems, smart technologies, and sustainable energy solutions reflect their ability to transform innovative ideas into practical solutions. Students have also earned recognition through awards, research presentations, publications, internships, and various extracurricular activities.

These achievements are a reflection of the students' dedication, teamwork, perseverance, and passion for learning, along with the continuous guidance and encouragement of the faculty. The department proudly celebrates their success and encourages them to continue innovating, achieving, and making a meaningful impact in the field of engineering.

EEE SHINES BRIGHT WITH OUTSTANDING PLACEMENT SUCCESS

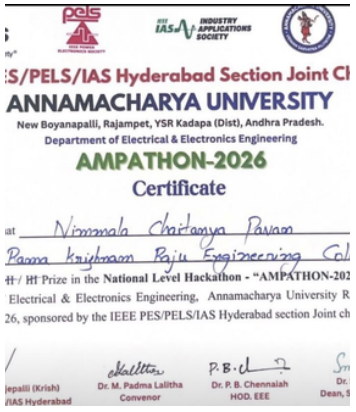

The 2026 graduating batch of the EEE Department achieved a remarkable placement performance, with 130 students securing a total of 292 offers from reputed organizations. The students recorded a highest package of ₹5.5 LPA and an average package of ₹3.2 LPA, demonstrating their strong employability and readiness to meet industry expectations.

This achievement reflects the students' technical competence, problem-solving abilities, adaptability, communication skills, and professional skills developed through their academic journey. The multiple offers secured by the students also demonstrate their ability to compete successfully in diverse recruitment processes and adapt to varied industry requirements.

The placement success is further strengthened by the department's continued efforts towards career development, skill enhancement, practical learning, and industry-oriented education. These achievements mark an important milestone in the students' transition from academic learning to professional careers and reflect the department's commitment to nurturing competent, confident, and industry-ready engineering professionals.

The Department of Electrical and Electronics Engineering proudly congratulates Nimmala Chaitanya Pavan for securing First Prizes in two prestigious innovation and technical competitions, bringing laurels to the department and institution.

1st Prize – SRISHTI 2026: As a member of Team Power Nova, Pavan secured 1st position in SRISHTI 2026 – Intra-Institutional Ideathon & Startup Competition, organized by the Entrepreneurship Development Cell of Sagi Rama Krishnam Raju Engineering College (A), Bhimavaram. The team was awarded ₹2,000 prize money for their innovative idea and entrepreneurial excellence.

1st Prize – AMPATHON 2026: Pavan also participated in AMPATHON 2026, organized by the Department of Electrical & Electronics Engineering, Annamacharya University, Rajampet, in association with the IEEE PES/PELS/IAS Hyderabad Section Joint Chapter. His team secured First Prize and received ₹25,000 prize money, recognizing their technical innovation, creativity, and problem-solving capabilities.

These remarkable accomplishments highlight the student's technical expertise, innovative thinking, teamwork, and entrepreneurial spirit, while bringing significant recognition to the EEE Department.

The Department congratulates Nimmala Chaitanya Pavan on these outstanding achievements and wishes him continued success in future technical and innovation endeavors.
